NEW SYSTEM SOFABEDS 2019

CARRIE

A brand new definition of the SOFABED

New Trend Concepts Italia have redefined the sofabed by combining the support of pocket springs with the comfort of memory foam creating new seat to sleep hybrid technology which has been specifically designed for pure comfort.

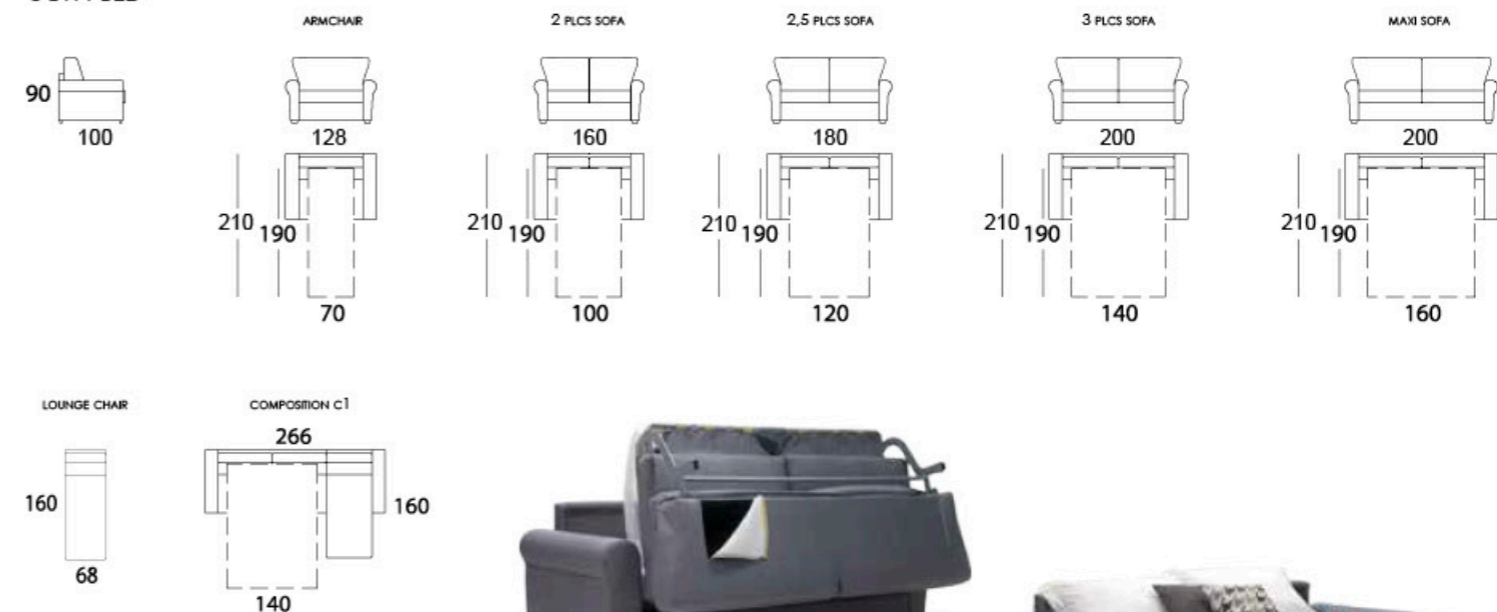

*YOU CAN SIT ON A REAL SOFA AND
SLEEP ON A REAL BED*

The new one-touch, easy opening **ROLLER MECHANISM** allows the use of a deeper mattress than the traditional 3 fold systems on the market.

The new **POSTURAL PLUS** integrated mattress is designed to be twice as deep as the traditional systems, allowing it to handle more weight with added bonus for a longer sofa seat... that feels like a real bed!
